File Edit View Project Build Debug Team Data Tools Test Analyze Window Help

Menu	Description
File	Contains commands for opening, closing, adding and saving projects, as well as printing project data and exiting Visual Studio.
Edit	Contains commands for editing programs, such as cut, copy, paste, undo, redo, delete, find and select.
View	Contains commands for displaying IDE windows (for example, Solution Explorer, Toolbox, Properties window) and for adding toolbars to the IDE.
Project	Contains commands for managing projects and their files.
Debug	Contains commands for compiling, debugging (that is, identifying and correcting problems in programs) and running programs.
Data	Contains commands for interacting with databases (that is, organized collections of data stored on computers)
Format	Contains commands for arranging and modifying a Form's controls. The Format menu appears only when a GUI component is selected in Design view.
Tools	Contains commands for accessing additional IDE tools and options for customizing the IDE.
Window	Contains commands for hiding, opening, closing and displaying IDE windows.
Help	Contains commands for accessing the IDE's help features.
